Roadmap for MSc(CPM) students admitted in 2021

**Prescribed Core Courses**
- Construction economics (RECO6004)
- Modern developments in the law of construction contracts (RECO6018)
- Procurement systems (RECO6028)
- Law for the real estate and construction industry (RECO6042)
- Development case studies (QS) (RECO6060)
- Management theory and projects (RECO7074)
- Occupational health, safety and well-being in construction (RECO7079)
- Information management in construction (RECO7096)

**Prescribed Capstone Course**
- Project workshop (CPM) (RECO6058)

**Elective courses of students’ choice**
- Any 3 electives
  - Law and practice of arbitration (RECO6032)
  - Construction claims (RECO7091)
  - Any 1 other elective
- MSc(CPM) majoring in Construction Law *
- Construction management practice (RECO7094)
  - Modern developments in construction (RECO7097)
  - Any 1 other elective
- MSc(CPM) majoring in Management of Projects *
- Economics for professionals (RECO6003)
  - Construction management practice (RECO7094)
  - Any 1 other elective
- MSc(CPM) majoring in Quantity Surveying *

* Fully accredited by Royal Institute of Chartered Surveyors (RICS) and the Chartered Institute of Building (CIOB)

^ Accredited by Pacific Association of Quantity Surveyors (PAQS) and the QS division of Hong Kong Institute of Surveyors (HKIS)

# To meet HKIS requirements, students who have not studied construction technology or taken equivalent courses before should take an additional elective course Building design and construction (RECO7095).

**Note:**
Students may choose to take Dissertation (18 credits) in lieu of ‘Project workshop (CPM)’ AND ‘any 2 electives’ to meet the requirements of the MSc(CPM) degree. Before choosing this option, students are advised to consult the Programme Director.
